CAREER OBJECTIVE

MERN Stack Developer focused on building responsive, user-friendly web applications with React, JavaScript, Tailwind CSS, Firebase, Node.js, Express.js, and MongoDB. Seeking an entry-level developer role where I can contribute clean frontend flows, learn from a strong engineering team, and help build useful products for real users.

TECHNICAL SKILLS

Core Technologies: HTML5, CSS3, JavaScript ES6+, Responsive Web Design

Frontend: React.js, React Router, Tailwind CSS, DaisyUI, Component-Based UI Development

Backend & Database: Node.js, Express.js, REST API Development, API Integration, MongoDB, CRUD Operations

Tools & Practices: Git, GitHub, VS Code, Firebase, Netlify, Vercel, Axios, JWT, Debugging

INTERPERSONAL SKILLS

Problem-Solving, Attention to Detail, Communication, Team Collaboration, Adaptability, Time Management, Eagerness to Learn

PROJECTS

Payoo - Mobile Banking UI | [Live Demo](#) | [Source Code](#)

Description: A mobile banking inspired web app that helps users view balances, track spending, manage transactions, and complete common financial actions from a mobile-first interface.

Technologies: JavaScript ES6+, Tailwind CSS, HTML5, CSS3, Chart.js, Font Awesome

- Users can view balance, spending analytics, and transaction history from a clean dashboard.
- Users can add money, send money, pay bills, filter notifications, and switch light/dark themes.
- Users can complete core banking actions on mobile, tablet, and desktop through responsive layout.

PawAdopt - Pet Adoption Platform | [Live Demo](#) | [Source Code](#)

Description: A pet adoption web application that helps users explore available pets, review details, and move through a clean adoption-focused experience.

Technologies: React, JavaScript, Tailwind CSS, Firebase, Vite

- Users can browse pet listings and open details pages to review adoption information clearly.
- Users can move through a simple adoption flow with clean routing and reusable UI components.
- Users can access the interface smoothly across desktop and mobile screens.

QurbaniHat - Qurbani Marketplace UI | [Live Demo](#) | [Source Code](#)

Description: A marketplace-style web project that helps users browse Qurbani animals, check details, and explore a buying-focused interface.

Technologies: React, JavaScript, Tailwind CSS, Firebase, Vite

- Users can browse animal listings and review details in a marketplace-style experience.
- Users can navigate product-focused pages through reusable components and clean UI structure.
- Users can explore the marketplace comfortably across phone, tablet, and desktop screens.

PROFESSIONAL EXPERIENCE

Manager | Dr. Dil Afroza Memorial Hospital, Saidpur, Nilphamari | Dec 2020 - Jan 2022

- Managed hospital administration, staff scheduling, procurement, vendor coordination, and daily workflows.
- Handled recruitment, onboarding, team coordination, service delivery, client follow-ups, and communication.

Marketing Intern | Incepta Pharmaceuticals Ltd. | Jun 2019 - Oct 2019

- Supported marketing strategy, team meetings, distributor coordination, and medical representative communication.
- Collaborated with team members to review market updates and support campaign execution.

Customer Service Assistant | O2 Arena & Chelsea Football Stadium, London, UK | Jan 2009 - Dec 2011

- Delivered customer support in large public event environments while maintaining professional communication standards.
- Supported new staff, handled customer queries, maintained records, and helped resolve complaints professionally.
